MCLELLAN ORCHIDS - 1950

C.

San Fransisco, Calif.

Via Railway Express

Via Greyhound Bus

SHIPPING

Shipments are sent via Express wherever practicable, unless otherwise requested. By careful packing, we are shipping our plants successfully to all parts of the United States and many foreign countries. However, we are not responsible for the safe arrival of the plants. Once the plants are accepted by the carriers, they are responsible for the shipment. Examine the plants carefully upon their arrival, and file an immediate claim with the express company if there is the slightest indication of damage. The express company must see the plants immediately to have a claim considered. We will gladly replace any damaged plants, but the claim must be filed to permit us to be reimbursed by the express company.

CONDITIONS OF SALE

SUBJECT TO PRIOR SALE: Orders are filled in the order of receipt. If possible, list an alternate choice to avoid delay, as we make no substitutions unless given specific permission to do so.

CREDIT: Until credit is established, all purchases are CASH or C.O.D.

SALES TAX: California customers, please add 3% State Sales Tax.

QUANTITY DISCOUNTS

On Quantity Purchases, we are offering the following discounts:

\$50.00 to \$250.00.....	10%
\$250.00 to \$1000.00.....	20%
over \$1000.00.....	30%

POLICY

It is our policy to give all the information that we have on anything that we sell.

We are sure that you will be enthusiastic about the plants you receive from the McLellan ranges. Only strong, clean, sturdy stock is listed in our catalog.

E.W. McLellan Co.

Box 289, Colma
San Francisco, 25, California

ORCHID GROWERS - EXPORTERS, IMPORTERS, HYBRIDIZERS

Orchid enthusiasts realize that the Hobby that belonged in the past solely to Kings can now be enjoyed by all of us. The "magic" has been removed from orchid growing with the advent of D.D.T. and the construction of the modern home, which makes an ideal conservatory for orchids. People in all parts of the World have found orchids one of the easiest plants to cultivate in the home, conservatory, or glasshouse.

We have attempted to gather together the "finest breeding parents on Earth" and to breed them with a modern scientific approach to obtain the greatest improvements in vigor, color, texture, size, shape, production, and period of bloom. With the aid of a complete, modern, hybridizing laboratory, trained technicians, our mass production, and vast commercial collection of orchids, we feel that we are able to offer the better things to the greater satisfaction of the orchid enthusiast.

Probably too often, San Francisco's cool, foggy summers and mild winters have been mentioned, but orchids do thrive in our Orchid Range in this "Air-Conditioned" San Francisco, and grow sturdy, plump, and vigorous.

We feel certain that you will be well pleased with the fine plants that we will ship you—the crosses, the vigor, the packing, and the price.

ORCHID PLANT CONTAINERS CUT FROM TREE FERN

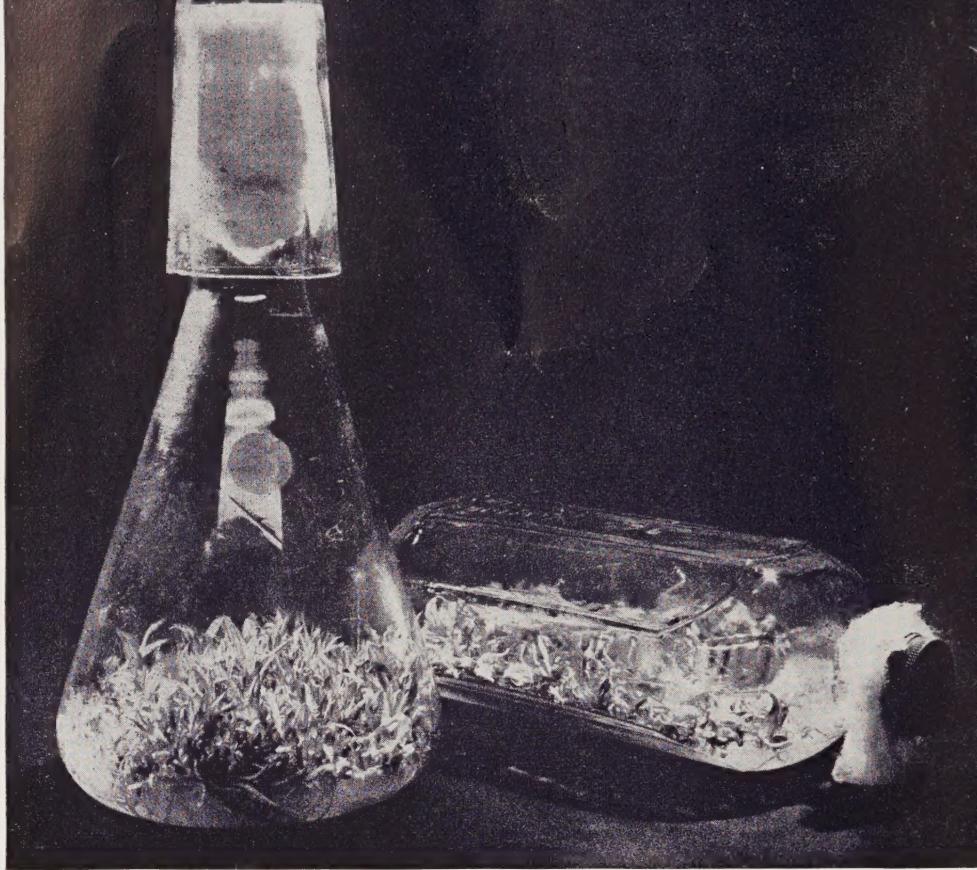

MCLELLAN FLASKS

These are offered for the professional or amateur who is interested in starting seedlings from the flask. Each of these crosses has at least 100 seedlings per flask.

NOTE: If the agar is disturbed in shipment and mixed with the plants, the seedlings should be transplanted immediately.

Cross No.	Parent Description	Price
565	LC. BABYLON X SLC. PRINCESS SOULANGE	colored, late fall \$25.00
572	LC. KAREN X C. NEBO	colored, early winter 25.00
574	C. NEBO X LC. OLIVER LINES	colored, early winter 25.00
606	C. PERCIVALIANA X LC. HAIDEE	colored, early winter 25.00
607	C. BANDIT X LC. HAIDEE	colored, early winter 25.00
659	C. APALACHEE X LC. HERTHA	colored, fall, winter 25.00
673	C. TRIANAE var. CLINKERBERRY-ANUM X LC. BALKIS	colored, winter 25.00

McLELLAN FLASH AND BOTTLE

681	C. NEBO X LC. TREMPEALEAU	colored, late fall 25.00
685	C. ENID var. gigantea X C. BANDIT	colored, early winter 25.00
697	C. PROSPECTOR X LC. TREMPEALEAU	colored, winter 25.00
700	LC. ATLANTIS X C. PROSPECTOR var. NANCY ANNE	colored, winter 25.00
704	C. TELLUS X LC. HERTHA	colored, winter 25.00
723	C. BARBARA BILLINGSLEY X BLC. MERU	white, winter 25.00
747	C. TITYUS X C. REMY CHOLET var. EXCELLENCE	colored, late winter 25.00
749	LC. GOLDEN CHARM X LC. MEDON	yellow, bronze, winter 25.00
850	C. DUPREANA X LC. ALTURA	colored, fall 25.00
876	C. DUPREANA X C. DUPREANA	colored, late spring 25.00
885	LC. ISOTTA X LC. S. J. BRACEY	yellow, bronze, summer 25.00
893	LC. ATLANTIS X C. HEYDAY	colored, winter 25.00

TRANSPLANTED FLASKS OF ODONTOGLOSSUM HYBRIDS

In addition to the above listings, we are also offering some Odontoglossum Hybrids in transplanted flasks at \$12.50, which contain a minimum of 50 plants.

Cross No.	Parent Description	Price
811	ODONTOGLOSSUM DOLABELLA X ODONTOGLOSSUM NINA	colors variable, winter-spring \$12.50
812	ODONTOGLOSSUM DOLABELLA X ODONTOGLOSSUM ESPOIR	colors variable, winter-spring 12.50
832	ODONTOGLOSSUM SIRION X (ODONTOGLOSSUM BASSANIO X ODONTOGLOSSUM MIRUM AUREUM)	colors variable, winter-spring 12.50
835	ODONTOGLOSSUM NINA X ODONTOGLOSSUM DIONYZIA	colors variable, winter-spring 12.50
877	(ODONTOGLOSSUM BASSANIO X ODONTOGLOSSUM MIRUM AUREUM) X ODONTIODA CARMINE	colors variable, winter-spring 12.50

MCLELLAN COMMUNITIES

Our 3" community pots are planted with 20 or more seedlings. These plants are ready to be shifted to thumb pots (1½"), and are sturdy, vigorous-growing stock.

The accurate description of the flower of both parents used in the cross will help you to make your selection.

Cross No. **Parent Description** **Price**

272 **C. NEBO**—Petals 6½" x 2½", medium lavender, labellum magenta with yellow throat—December.
 X

LC. TREMPEALEAU—Petals 7¼" x 2¾", rich lavender, labellum crimson purple with gold throat—November.

Purpose: A Thanksgiving to Christmas hybrid, producing a very good quality flower in quantity.

289 **C. ESTELLE alba**—Petals 7¼" x 2¾", pure white, labellum white with golden yellow throat—January.
 X

C. BARBARA BILLINGSLEY—Petals 7½" x 3", pure white, labellum ruffled white with clear golden throat—January.

Purpose: A superior white Cattleya for the December and January period. Estelle alba should impart fine strength and productivity. The seedlings grow rapidly.

301 **C. NEBO**—Petals 6¾" x 2¾", medium lavender, labellum magenta with yellow throat—December.
 X

LC. MIRABELLE—Petals 7½" x 3¼", rose mauve, labellum crimson purple with cream yellow side zones—November.

Purpose: To improve in color, shape, and form the C. Nebo which never misses blooming at Christmas.

302 **C. BARBARA BILLINGSLEY**—Petals 8" x 3", pure white, labellum white with lemon yellow throat—December. **12.50**
 X

C. BARBARA BILLINGSLEY—Petals 7" x 2¾", pure white, labellum white with lemon yellow throat—January.

Purpose: A winter blooming, pure white of excellent size and production.

304 **LC. CABAZON**—Petals 7½" x 2¾", medium lavender, labellum rich magenta with gold throat—January. **8.50**
 X

C. NEBO—Petals 6¾" x 2¾", medium lavender, labellum magenta with orange-yellow throat—December.

Purpose: A good textured hybrid for the early winter.

319 **C. SIR PERTINAX**—Petals 8½" x 2¾", medium lavender, labellum rose magenta with yellow throat—February. **8.50**
 X

LC. ATLANTIS—Petals 8" x 3", rose mauve, labellum crimson purple—April.

Purpose: A very vigorous, good colored hybrid for the winter season.

350 **C. TITYUS**—Petals 7¼" x 2¾", rose mauve, labellum bright purple with golden yellow throat—March. **8.50**
 X

C. NEBO—Petals 7¾" x 2¾", medium lavender, labellum magenta with yellow throat—December.

Purpose: To make C. Bandit, which is an extremely satisfactory, early winter hybrid of large size and good color.

355 **C. APALACHEE**—Petals 7½" x 2¾", rose lavender, labellum magenta with apricot veined throat—February. **8.50**
 X

C. TITYUS—Petals 7¼" x 2¾", rose mauve, labellum large solid crimson purple with yellow throat—January.

Purpose: A highly productive winter blooming hybrid, made with a very fine C. Tityus.

367 **C. PROSPECTOR var. HELEN BUSS**—Petals 7¼" x 3¼", rose lavender, labellum crimson with yellow throat area **8.50**
 X —March.

C. TITYUS—Petals 7¼" x 2¾", rose mauve, labellum bright purple with golden yellow throat—March.

Purpose: To make C. Pilgrim, a very satisfactory flower for late winter and early spring production.

369 **C. VARUNA**—Petals 7½" x 2¾", entire flower dark magenta, labellum a shade darker than the rest of the flower **12.50**
 X —September.

C. PROSPECTOR var. HELEN BUSS—Petals 7¼" x 3¼", rose lavender, labellum crimson with yellow throat area
 —March.

Purpose: To produce a new, darker C. Prospector type hybrid, which is noted for its productivity and vigor. The season will be variable, peaking in the winter.

A McLELLAN COMMUNITY POT

Cross No.	Parent Description	Price
372	LC. MEM. HELENE AMMENHEUSER —Petals $7\frac{1}{4}$ " x $3\frac{1}{8}$ ", rose lavender, labellum rich purple with yellow throat X —March. LC. MIRABELLE —Petals $7\frac{1}{2}$ " x $3\frac{1}{4}$ ", rose mauve, labellum crimson purple with cream yellow side zones—November.	8.50
	Purpose: A large, dark-flowered, winter blooming hybrid of vigorous growth habit.	
373	C. TALISMAN —Petals $7\frac{1}{4}$ " x $2\frac{5}{8}$ ", rose lavender, labellum rich magenta with good yellow throat—March. X LC. ATLANTIS —Petals $8\frac{1}{4}$ " x $3\frac{1}{8}$ ", rose magenta, labellum deep crimson purple—January.	8.50
	Purpose: A strong growing, winter blooming hybrid, producing good textured, dark flowers.	
380	BLC. MOMERCIA —Petals of $6\frac{1}{4}$ " x $2\frac{3}{4}$ ", deep rose lavender, labellum rich crimson purple with golden throat— X March. C. PROSPECTOR —Petals 7" x 3", rose lavender, labellum rose magenta with light margin and a yellow throat— March.	8.50
	Purpose: An exceptional, good quality flower for the early spring season that will resemble the Laeliocattleya, rather than the Brassocattleya.	
390	C. MOSSIAE —Petals $7\frac{1}{4}$ " x $2\frac{1}{2}$ ", medium lavender, labellum rose purple with mauve edging and yellow throat— X April. BLC. MOMERCIA —Petals $6\frac{1}{4}$ " x $2\frac{3}{4}$ ", deep rose lavender, labellum rich crimson purple with golden throat— March.	8.50
	Purpose: A hybrid to replace C. Mossiae, this should have considerably more color and improved texture.	
398	C. MOSSIAE —Petals $7\frac{3}{4}$ " x $2\frac{3}{4}$ ", rose lavender, labellum rose purple with yellow orange throat—April. X LC. CUESTA —Petals 7" x $2\frac{3}{4}$ ", rose magenta, labellum deep crimson purple—February.	8.50
	Purpose: A late winter and early spring hybrid; both parents are very fine types.	
409	C. MONMOSS —Petals 7" x 3", medium lavender, labellum dark magenta with gold throat—April. X LC. MEM. HELEN AMMENHEUSER —Petals $7\frac{1}{4}$ " x $3\frac{1}{8}$ ", rose lavender, labellum rich purple with yellow throat— March.	8.50
	Purpose: A hybrid of much better size, color and texture than C. Mossiae, which will equal the production of the C. Mossiae during the same season.	
433	C. COWANIAE —Petals 10" x $3\frac{1}{4}$ ", medium lavender, labellum gold overlaid with magenta and the margin ruffled X —May. LC. ATLANTIS —Petals $8\frac{1}{4}$ " x $3\frac{1}{8}$ ", rose magenta with darker center stripe, labellum and throat velvety crimson purple—February.	8.50
	Purpose: A late winter and early spring hybrid to replace C. Mossiae.	
435	C. COWANIAE —Petals $9\frac{1}{2}$ " x $3\frac{1}{4}$ ", medium lavender, labellum magenta with golden orange throat—May. X BLC. MOMERCIA —Petals $6\frac{1}{4}$ " x $2\frac{3}{4}$ ", deep rose lavender, labellum rich crimson purple with golden throat—March.	8.50
	Purpose: A fine textured hybrid for the spring season.	

C. BARBARA BILLINGSLEY—USED IN CROSSES No. 289, 302, 440, 454

440	C. PAVLOVA var. BALLERINA —Petals $6\frac{3}{4}$ " x 2" pure white, labellum lemon yellow—May.	8.50
	C. BARBARA BILLINGSLEY —Petals 8" x 3", pure white, labellum ruffled white with clear golden throat—January.	
	Purpose: A well-shaped, excellent textured, white Cattleya, with a scattered season from Christmas to Easter.	
454	C. CONCINNITY —Petals $7\frac{3}{4}$ " x $2\frac{7}{8}$ ", pure white, labellum white with a light orange throat—May.	8.50
	C. BARBARA BILLINGSLEY —Petals $6\frac{3}{4}$ " x $2\frac{7}{8}$ " pure white, labellum white with orange throat—March.	
	Purpose: A pure white Cattleya producing and growing exceptionally well for the winter and spring season.	
473	LC. NYMPH —Petals $8\frac{1}{2}$ " x $2\frac{3}{4}$ ", rose lavender, labellum rich magenta with yellow throat—June. X	8.50
	LC. CABAZON —Petals 6" x $2\frac{3}{4}$ ", rich rose magenta, labellum rich crimson purple and golden throat—June.	

Cross No.	Parent Description	Price
-----------	--------------------	-------

Purpose: A really fine hybrid, with a scattered season, peaking in June. Flowers should be outstanding on good stems.

476 **LC. ROSAMUNDE**—Petals $8\frac{3}{4}$ " x 3", rich rose magenta, labellum crimson purple—June.
X

LC. CABAZON—Petals $6\frac{1}{2}$ " x $2\frac{3}{4}$ ", rich rose lavender, labellum crimson purple with gold throat—May.

Purpose: Fine color, quality and shape should result from this Laeliocattleya combination. Expect a scattered season of bloom peaking in early summer.

522 **LC. S. J. BRACEY**—Petals $6\frac{3}{4}$ " x $2\frac{1}{2}$ " 12.50
X bronze-yellow, labellum crimson purple—July.

C. TRIUMPHANS—Petals 6" x $2\frac{1}{8}$ ", creamy yellow, labellum rosy red with yellow veins—July.

Purpose: A good novelty Laeliocattleya, producing good textured yellow and bronze flowers in the summer and fall. The seedlings are fine growers.

AN ATTRACTIVE SPRAY OF C. MOSSIAE. MOSSIAE CROSSES ARE Nos. 390, 398

MCLELLAN SEEDLINGS— $1\frac{1}{2}$ AND $2\frac{1}{4}$ INCH POTS

Cross No.	Parent Description	Size	Price
3	C. LILLIAN STEWART —Petals $5\frac{3}{4}$ " x $2\frac{5}{8}$ ", white with deep yellow throat—November. X	$2\frac{1}{4}$ "	4.00
	C. ESTELLE alba —Petals 7" x $2\frac{1}{2}$ ", white, labellum white with yellow orange throat—November.		
	Purpose: To produce a pure white, winter blooming Cattleya with a vigorous growth habit.		
4	C. LEDA splendens —Petals $5\frac{1}{4}$ " x $2\frac{1}{4}$ ", rose magenta, labellum reddish purple with yellow throat— X November.	$2\frac{1}{4}$ "	3.00
	BC. HARTLAND —Petals $6\frac{1}{2}$ " x $2\frac{5}{8}$ ", medium rose lavender, fringed mauve labellum with yellow throat— November.		
	Purpose: An excellent growing, well-shaped, rich colored hybrid, with Brasso type labellum and yellow throat, blooming in the winter.		
20	C. NATALIE DEKENS —Petals $5\frac{3}{4}$ " x $1\frac{3}{4}$ ", white, labellum white with very pale yellow throat—April. X	$2\frac{1}{4}$ "	4.00
	C. ESTELLE alba —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", white, labellum white with yellow throat—March.		
	Purpose: An excellent textured, clear white with yellow throat. Flowers winter through spring. This is expected to be a good producer with the vigorous growth and excellent keeping qualities of C. Estelle alba.		
25	C. PAVLOVA var. BALLERINA —Petals $6\frac{3}{4}$ " x 2", white, labellum lemon yellow—May. X	$2\frac{1}{4}$ "	4.00
	C. ESTELLE alba —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", white, labellum white with yellow throat—March.		
	Purpose: A well-shaped, excellent textured, white with yellow throat, early to late spring. Both parents are good producers and vigorous growers.		
32	C. LADY JOAN —Petals $6\frac{3}{4}$ " x $2\frac{1}{2}$ ", white, white labellum with lemon yellow throat—May. X	$1\frac{1}{2}$ "	1.50
	C. ESTELLE alba —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", white with yellow throat—March.		
	Purpose: To produce a white with yellow throat, of good size and shape, to flower from early to late spring.		
33	C. MOSSIAE —Petals $6\frac{1}{2}$ " x $2\frac{1}{2}$ ", medium lavender, darker labellum—May. X	$2\frac{1}{4}$ "	3.00
	C. CAJON —Petals $7\frac{1}{2}$ " x $2\frac{1}{2}$ ", medium lavender, labellum crimson purple with yellow throat and eyes— May.		
	Purpose: A good producing, spring blooming, improved Mossiae-type hybrid, having large flowers with dark labellum and yellow throat.		
66	C. ALESSANDRO —Petals 7" x $2\frac{1}{2}$ ", medium lavender, labellum purple with light bronze throat—December. X	$1\frac{1}{2}$ "	1.50
	LC. TREMPEALEAU —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", rich lavender, labellum crimson purple with gold throat—December.		
	Purpose: To produce an extremely vigorous, Christmas season hybrid of good flower color and shape on a satisfactory stem.		
67	C. APALACHEE —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", medium lavender, large orange-yellow labellum—December. X	$1\frac{1}{2}$ "	1.50
	LC. TREMPEALEAU —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", rich lavender, labellum crimson purple with gold throat—November.		
	Purpose: A vigorous, Christmas blooming hybrid, with exceptionally large, dark flowers, yellow throat, excellent shape and good production.		

Cross No.	McLellan Seedling Parent Description	Size	Price
70	C. NEBO—Petals 6½" x 2¾", medium lavender, labellum magenta with yellow throat—December. X LC. ELISSA—Petals 7" x 3", rich rose magenta, labellum crimson purple—November. Purpose: An excellent growing, good producing medium to dark flowered hybrid for the Christmas season.	1½"	1.50
82	(C. DINAH x LC. MATADOR)—Petals 7" x 2½", purple splashed, labellum rich rose purple—August. X C. GENERAL PULTNEY var. PERRINI—Petals 7½" x 3⅓", medium lavender with rich purple stripe, labellum crimson purple with yellow eyes—January. Purpose: A large sized, early winter flower with a distinct tendency to have well marked, striped petals of good contrasting colors.	1½"	1.50
110	C. H.B. TURNER—Petals 8" x 3½", dark lavender, labellum deep magenta with ruffled edge and rich gold X throat—December. C. LEDA splendens—Petals 5½" x 2¾", rich rose with striped yellow throat—November. Purpose: An extraordinary heavy producing Christmas hybrid of good color.	1½"	1.50
115	LC. ATLANTIS—Petals 8" x 3⅓", dark lavender, labellum crimson purple with yellow throat—January. X LC. ATLANTIS—Petals 8¼" x 3⅓", rose magenta with darker center stripe, labellum and throat velvety crimson purple—February. Purpose: To produce a superb strain of dark colored, productive hybrids, flowering in late fall and winter, from which to select parents for future breeding.	1½"	2.00
118	LC. CHEVALIER—Petals 8" x 3", dark lavender, labellum crimson purple—April. X LC. ATLANTIS—Petals 8¼" x 3⅓", rose magenta, labellum deep crimson purple—January. Purpose: A distinct improvement over present-day spring blooming hybrids as to color, shape, and growing characteristics.	1½"	2.00
133	C. MOSSIAE var. HAGER—Petals 8½" x 2¾", medium lavender, labellum ruffled, dark Mossiae type—May. X LC. ATLANTIS—Petals 8½" x 3", deep rose magenta, labellum rich crimson purple—January. Purpose: A spring flowering, well shaped hybrid, better colored than average.	1½"	1.50
138	C. MRS. FREDERICK KNOLLYS alba—Petals 8" x 3", white, labellum purple with yellow throat—April. X C. BRUSSELS—Petals 9¼" x 2¾", white, labellum purple with white ruffled edge and yellow throat—March. Purpose: A good growing white, with colored lip, for the spring season.	1½"	1.50
144	LC. BRITANNIA—Petals 7¾" x 3", lilac mauve, labellum rich royal purple, with old gold throat veining— X April. LC. ATLANTIS—Petals 8" x 3⅓", medium lavender, labellum rich reddish purple—March. Purpose: A large, well-formed, dark flower with rich dark labellum, having gold veining in the throat. We expect vigorous growth with a variable spring and summer flowering season.	1½"	2.00
159	C. CREPUSCULE—Petals 7¾" x 2½", glowing crimson purple, frilled ruby purple labellum with golden X throat—June. C. INTERTEXTA—Petals 8¾" x 2½", flower is deep wine color throughout, richest on the lip—May. Purpose: A good producing, late spring hybrid of intense color and excellent texture.	1½"	1.50
163	C. PRISCILLA alba—Petals 8" x 2½", white, labellum purple with yellow throat—May. X C. MRS. FREDERICK KNOLLYS alba—Petals 8" x 3", white, labellum purple with yellow throat—May. Purpose: A large flowered white, with colored labellum for the winter and spring season.	1½"	1.50
168	LC. CABAZON—Petals 6½" x 2¾", rose lavender with crimson shading toward the tips, labellum ruby crimson, yellow throat—May. C. MOSSIAE—Petals 9" x 3", clear mauve, labellum purple with yellow gold throat—April. Purpose: A good quality flower of fine shape with the production and growth of C. Mossiae. Expect spring flowering, with some variations.	1½"	1.50
170	C. VARUNA—Petals 7¼" x 2½", rose purple, labellum deeper rose purple—August. X C. CREPUSCULE—Petals 7¾" x 2½", glowing crimson purple, frilled ruby-purple labellum with golden throat—June. Purpose: A strong growing, exceptionally dark, colored Cattleya for early summer.	1½"	1.50
172	C. PRISCILLA alba—Petals 8¾" x 2¾", pure white tipped with purple, labellum violet purple with yellow X throat—May. C. BRUSSELS alba—Petals 8" x 2¾", pure white, labellum purple with larger yellow area extending into throat—April. Purpose: A good producing, strong growing white hybrid, with colored lip, for winter and spring.	1½"	2.00
174	C. MOSSIAE—Petals 8½" x 3", rose lavender, labellum rose purple with mauve edging and gold throat— X April. C. H.B. TURNER—Petals 8" x 3½", dark lavender, labellum deep magenta with ruffled edge and rich gold throat. Purpose: A cross of high merit in both production and season, which extends from February to May.	1½"	1.50
175	C. ANGELUS—Petals 5¼" x 1¾", pure white labellum pale yellow—May. X C. ESTELLE alba—Petals 7¾" x 2¾", pure white, labellum white, with orange throat—March. Purpose: A medium sized, heavy textured white Cattleya for the spring season.	1½"	2.00

MENDING SHADE CLOTH IN A McLELLAN SEEDLING HOUSE

15	LC. CHEVALIER —Petals 8" x 3", dark lavender, labellum crimson purple—April. X LC. BRITANNIA —Petals 7 $\frac{3}{4}$ " x 3", lilac mauve, labellum rich crimson purple, with gold throat veining— April. Purpose: A good producing, heavy textured hybrid for early spring. Color should be dark throughout.	3"	5.00

20	C. NATALIE DEKENS —Petals $5\frac{3}{4}$ " x $1\frac{3}{4}$ ", white, labellum white with very pale yellow throat—April. X	3"	5.00
	C. ESTELLE alba —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", white, labellum white with yellow throat—March.		
	Purpose: An excellent textured, clear white with yellow throat. Flowers winter through spring. This is expected to be a good producer, with the vigorous growth and excellent keeping qualities of C. Estelle alba.		
25	C. PAVLOVA var. BALLERINA —Petals $6\frac{3}{4}$ " x 2", white, labellum lemon yellow—May. X	3"	5.00
	C. ESTELLE alba —Petals $7\frac{1}{2}$ " x $2\frac{3}{4}$ ", white, labellum white with yellow throat—March.		
	Purpose: A well-shaped, excellent textured, white with yellow throat, early to late spring. Both parents are good producers and vigorous growers.		
33	C. MOSSIAE —Petals $6\frac{1}{2}$ " x $2\frac{1}{2}$ ", medium lavender, darker labellum—May. X	3"	5.00
	C. CAJON —Petals $7\frac{1}{2}$ " x $2\frac{1}{2}$ ", medium lavender, labellum crimson purple with yellow throat and eyes—May.		
	Purpose: A good producing, spring blooming improved Mossiae-type hybrid, having large flowers with dark labellum and yellow throat.		

OTHER UNFLOWERED SEEDLINGS

We still have available these unflowered seedlings of exceptional crosses that we purchased to obtain breeding stock therefrom. We are able to share with our customers those that we have in goodly numbers, many of which are ready to bloom.

SPECIES

Because of their well-defined blooming period, wealth of bloom, and their definite characteristics, Species are the foundation and educational part of particularly the beginner's collection. Due to their vigorous growth, they can be grown successfully in the home where no greenhouse is available, and thrive at temperatures most comfortable to human beings.

Name	Description	Size	Price
C. GASKELLIANA —Native to Venezuela. Light to medium lavender—late spring.	4" 5"	\$ 4.00 - \$ 7.50 5.00 - 12.00

VANDA COERULEA —The best known blue orchid. Its sprays of blue flowers are produced in late autumn and early winter.			5"	12.50
			6"	15.00

FLOWERING-SIZE PLANTS

Each plant's flowering history is recorded on an accompanying label.

What does this label mean?

The label which is marked: 6/15/49 3 #2 means that **three flowers** of **#2 grade** were cut June 15, 1949. A date without a flower record indicates the re-potting time.

How we grade:

The width of the flower indicates the grade of the plant:
 Up to 5" Spread No. 4
 5" to 5½" No. 3
 5½" to 6½" No. 2
 6½" and larger No. 1

OUR PRICES ARE BASED ON THE SIZE AND QUANTITY OF THE BLOOMS, THE SIZE OF THE PLANT, AND THE NUMBER OF LEADS.

From several very fine collections we have purchased, we are selling all varieties with less than 50 plants. Here is a selection to tempt the orchid enthusiast.

NOTE: When two prices are shown opposite a pot size, intermediate prices frequently are available. IT WILL SAVE TIME IN FILLING YOUR ORDER IF YOU WILL STATE THE RANGE OF PRICES ACCEPTABLE TO YOU IN THE VARIETY AND POT SIZE YOU PREFER.

C. COWANIAE, A VIGOROUS GROWING, SPRING BLOOMING HYBRID

LIMITED OFFERING

We have assembled here on one listing those plants of which we have only one or two.

These are choice plants, priced somewhat lower since they are available in only one or two plants in each size, as listed. Thus, for this group only, a second choice should be made for each selection, in the event that the plant you first select has already been sold.

						6"	18.00

CYMBIDIUMS

These terrestrial orchids have become very popular for sheltered garden planting, particularly along the coastal areas of California. A beautiful Cymbidium in bloom is the highlight of any mid-winter garden.

We have chosen these varieties for their ease of growth and abundance of bloom for outdoor or garden culture.

Only flowering plants are listed in well established pots in the 6" to 14" sizes; all are ideal for the average grower.

Pricing is done in the usual manner at \$1.00 to \$10.00 per bulb, depending upon the variety and quality of the flower. Thus, the price per plant indicates the size and quality.

We expect from 1 to 2 flower spikes each winter in the 6" to 8" pots, 2 to 4 spikes in the 9" to 10" pots, and 3 to 8 spikes in the 12" to 14" pots, depending upon the variety.

Name	Description	Pot Size	Price
BUTTERFLY (<i>insigne</i> x <i>Lowio-grandiflorum</i>)—Flowers cream to tan (very similar to <i>Pauwelsii</i>)—late winter.		8"	\$ 9.00 - \$15.00 9"-10" 12.00 - 36.00 12" 15.00 - 45.00

BERYL (<i>Lowianum</i> x <i>Pauwelsii</i>)—Flowers cream to tan in color—mid-winter.	8"	9.00 - 18.00 10" 12.00 - 24.00
---	----	-----------------------------------

DORIS (*insigne* x *Tracyanum*)—Flowers brown to greenish brown—mid-winter.

7"-8"	7.50 - 18.00
9"-10"	10.00 - 24.00
12"	15.00 - 30.00

FINETTA (*Lyoth* x *Susette*)—Flowers varying pink, yellow, brown—mid-winter.

6"-8"	15.00 - 35.00
6"-10"	30.00 - 45.00

INSIGNE HYBRIDS—Flowers delicate light pink, very productive and easy to flower—mid-winter.

8"-10"	10.00 - 36.00
12"-14"	15.00 - 48.00

LEONIE (*Bryan* x *Falcon*)—Flowers yellow to brown. Good size and well-shaped—mid-winter.

8"	15.00 - 35.00
9"-10"	30.00 - 45.00

LOWIANUM—Olive green petals and sepals, red crested labellum, easy to grow and flower—winter.

8"	10.00 - 18.00
10"	12.00 - 24.00
12"	15.00 - 30.00

LOWIO-grandiflorum Hybrids—Flowers olive green and brown, good size—winter.

7"-8"	15.00 - 40.00
9"-10"	20.00 - 50.00

LOWIANUM HYBRIDS—Flowers green to tan in color—winter.

8"	10.00 - 27.00
9"-10"	12.00 - 36.00
12"-14"	15.00 - 54.00

MADELEINE (*insigne* x *Pauwelsii*)—Flowers pink to brown, very floriferous—late winter.

6"	7.50 - 20.00
7"	10.00 - 30.00
8"-9"	12.50 - 35.00

MOIRA (*Pauwelsii* x *Tracyanum*)—Brown green, labellum with brown markings—winter.

7"-8"	10.00 - 24.00
10"	15.00 - 30.00

PAUWELSII (*insigne* x *Lowianum*)—Cream to tan sepals and petals, labellum spotted brown to maroon, tall arching flower stems bearing up to 35 flowers per stem—winter to spring.

6"-8"	7.50 - 27.00
9"-10"	10.00 - 36.00
12"-14"	15.00 - 54.00

CYPRIPEDIUMS

These plants bear blooms unequaled in keeping qualities, both on the plant and cut.

Their temperature requirements permit a great deal of leeway for the amateur grower, as the plant will grow quite successfully in night temperatures ranging from 55 to 70 degrees. All plants listed have flowered.

Name	Parent Description	Size	Price
ALCIBIADES , var. <i>magnificum</i> , F.C.C. R.H.S. (<i>Leeanum</i> , <i>giganteum</i> x <i>M. de Curte</i>)	Pouch and petals green shaded with mahogany and purple, while dorsal sepal is mainly white shaded green brown at base.	4"	\$10.00
ANITA , var. <i>compactum</i> (<i>Actaeus</i> , <i>Bianca</i> x <i>Sanaederae</i>)	Petals and pouch yellow green dorsal white with yellow green shading at base.	4"	20.00
BALDUR , var. <i>magnificum</i> , A.M. R.H.S. (<i>G. F. Moore</i> x <i>Niobe</i>)	The dorsal sepal pale rose shading to brownish green at its base. Petals and pouch rich burnished brown.	4"	15.00

Name	Parent Description	Size	Price
CALLOSUM (Species) The foliage lovely mottled green. The dorsal sepal is white shaded to green at its base and striped with dark crimson. Petals pale green and pouch brown purple.		4" 5"	\$ 5.00 - \$10.00 7.50 - 12.50
CANDACE, var. superbum (Lady Dillon x Marmion) The dorsal sepal shades from claret to chestnut, petals and pouch deeply shaded chestnut over golden green.	(Lady Dillon x Marmion)	4"	35.00
CLARICE (Marne x Swallow) Spotted white dorsal sepal, petals and pouch shaded in rich browns over olive background.	(Marne x Swallow)	4"	25.00
CORSAIR, Westonbirt variety (Niobe x nitens) The white bordered dorsal sepal has a rich rose red central flame. The petals and pouch are yellow brown overlaid with warm mahogany. It has a noteworthy tall flower stem.	(Niobe x nitens)	4"	30.00
CYCLOPS, Westonbirt variety, A.M. R.H.S. (Actaeus x fulshawense) The broad dorsal sepal of the fine round flower is greenish yellow with chestnut red spots. Petals and pouch mahogany red.	(Actaeus x fulshawense)	4"	25.00
CYCLOPS, var. superbum —Similar to above, but has tawny yellow petals and pouch with warm brown shadings.	—Similar to above, but has tawny yellow petals and pouch with warm brown shadings.	4"	20.00
FAIRRIEANUM HYBRIDS —Flower shape similar to Fairrieanum, petals and dorsal variable purple striping or spotting, pouch russet to mahogany.	—Flower shape similar to Fairrieanum, petals and dorsal variable purple striping or spotting, pouch russet to mahogany.	4"	10.00 - 15.00
GARIBALDI (Bronzino x Earl of Tankerville) The golden green dorsal sepal is blotched dark crimson purple, petals and pouch golden brown.	(Bronzino x Earl of Tankerville)	4"	7.50
GASTON BULTEL (Fairrieanum x Mme. Coffinet) Dorsal sepal veined with light purple and light brown, the petals shade from red to white and pouch is Prussian red.	(Fairrieanum x Mme. Coffinet)	4"	20.00
HARRISIANUM (barbatum x villosum) Entire flower is dark Indian red with a touch of green, white and purple shadings, foliage is a mottled green.	(barbatum x villosum)	4"	7.50
HARRISIANUM, var. superbum —Similar to above in coloring but has improved shape.	—Similar to above in coloring but has improved shape.	4"	10.00
INSIGNE, var. Harefield Hall, F.C.C. R.H.S. —Larger flowers than the Insigne Specie. Similarly colored dorsal sepal with much larger chocolate brown spots.	—Larger flowers than the Insigne Specie. Similarly colored dorsal sepal with much larger chocolate brown spots.	4"	15.00
LEEEANUM (insigne x Spicerianum) Petals and pouch are brownish yellow. Dorsal yellow green speckled with purple toward the tip. Productive with long lasting flowers.	(insigne x Spicerianum)	4"	10.00
MADAME ALBERT FEVRIER (Germaine Opoix x insigne) A free blooming plant with spotted dorsal sepal, and petals and pouch of rose mahogany.	(Germaine Opoix x insigne)	4"	25.00
MARNE, Westonbirt variety (Alcibiades, Illustrious x Beryl) Rose purple spots adorn the wide white dorsal sepal. Bronze petals and pouch edged with pale green.	(Alcibiades, Illustrious x Beryl)	4"	30.00
MARTIN (Bourton Lady x Swallow) Especially attractive because of raised large dark spots on the green and white dorsal sepal and petals. Pouch a contrasting solid russet.	(Bourton Lady x Swallow)	4"	25.00
MAUDIAE, var. magnificum, F.C.C. R.H.S. (callosum Sanderae x Lawrenceanum, Hyeanum) Universal favorite because of its lovely mottled green foliage and fine green and white long stemmed flowers.	(callosum Sanderae x Lawrenceanum, Hyeanum)	3" 4"	10.00 15.00
MINOTAUR, F.C.C. R.H.S. (Hera x nitens-Leeanum, Minnie) Broad dorsal sepal clear white, with golden green base and central area of claret purple. Petals and pouch polished mahogany.	(Hera x nitens-Leeanum, Minnie)	4"	35.00
OLYMPUS, Westonbirt variety, A.M. R.H.S. (Alcibiades x Leeannum, Clinkaberryanum) Broad white dorsal sepal has sunburst of radiating deep purple lines and highly varnished petals and pouch tawn yellow with red brown shading.	(Alcibiades x Leeannum, Clinkaberryanum)	4"	35.00
PERSEUS, F.C.C. R.H.S. (Alcibiades, Illustrious x Lady Dillon) Richly colored. Large white margined dorsal sepal covered with spotted lines of claret. Broad petals and pouch purple brown with gold shading.	(Alcibiades, Illustrious x Lady Dillon)	4"	40.00
QUEEN OF THE BELGIANS (Cynthia x M. de Curte, alportense) White and faint green dorsal sepal daubed with brown and purple spots and petals and pouch of Corinthian red blended with sorghum brown.	(Cynthia x M. de Curte, alportense)	4"	15.00

CYPRIPEDIUM CALLOSUM

ORCHID GROWING BETWEEN SIPS OF COFFEE—SO ATTRACTIVE—SO SIMPLE

Name	Parent Description	Size	Price
SAINT ALBAN (<i>Antigone x Harrisianum</i>)	Exciting medium sized flower with deep mahogany red pouch and petals. Dorsal sepal has mahogany red sunrise shading to white at sides and top.	3" 4"	7.50 10.00
SAINT MILO —White margin, brown spotted dorsal with green background. Petals and pouch rich polished mahogany brown.		4"	10.00
SIR REDVERS BULLER (<i>insigne x Smithii</i>)	Early flowering, long stemmed cypripedium bearing well balanced flowers of good size. Dorsal is light green and rose fading into white, peppered with small light brown dots. Petals and pouch light bordeaux.	4"	20.00
VILLOSUM (Species)	Vigorous species with pouch and petals of yellow brown and dorsal sepal of brownish purple shaded with green.	4" 5"	5.00 7.50

CARE OF ORCHIDS IN THE HOME

LOCATION: Try to give orchid plants a position near a window with as much light as possible, providing there is positive protection against DIRECT MID-DAY SUN. Plants while in bloom can be placed anywhere at your pleasure, even in dark hallways.

WATERING: Water once a week with one cup of water for a 5-inch pot, and proportionately more for larger pots. During summer heat spells, watering can be increased.

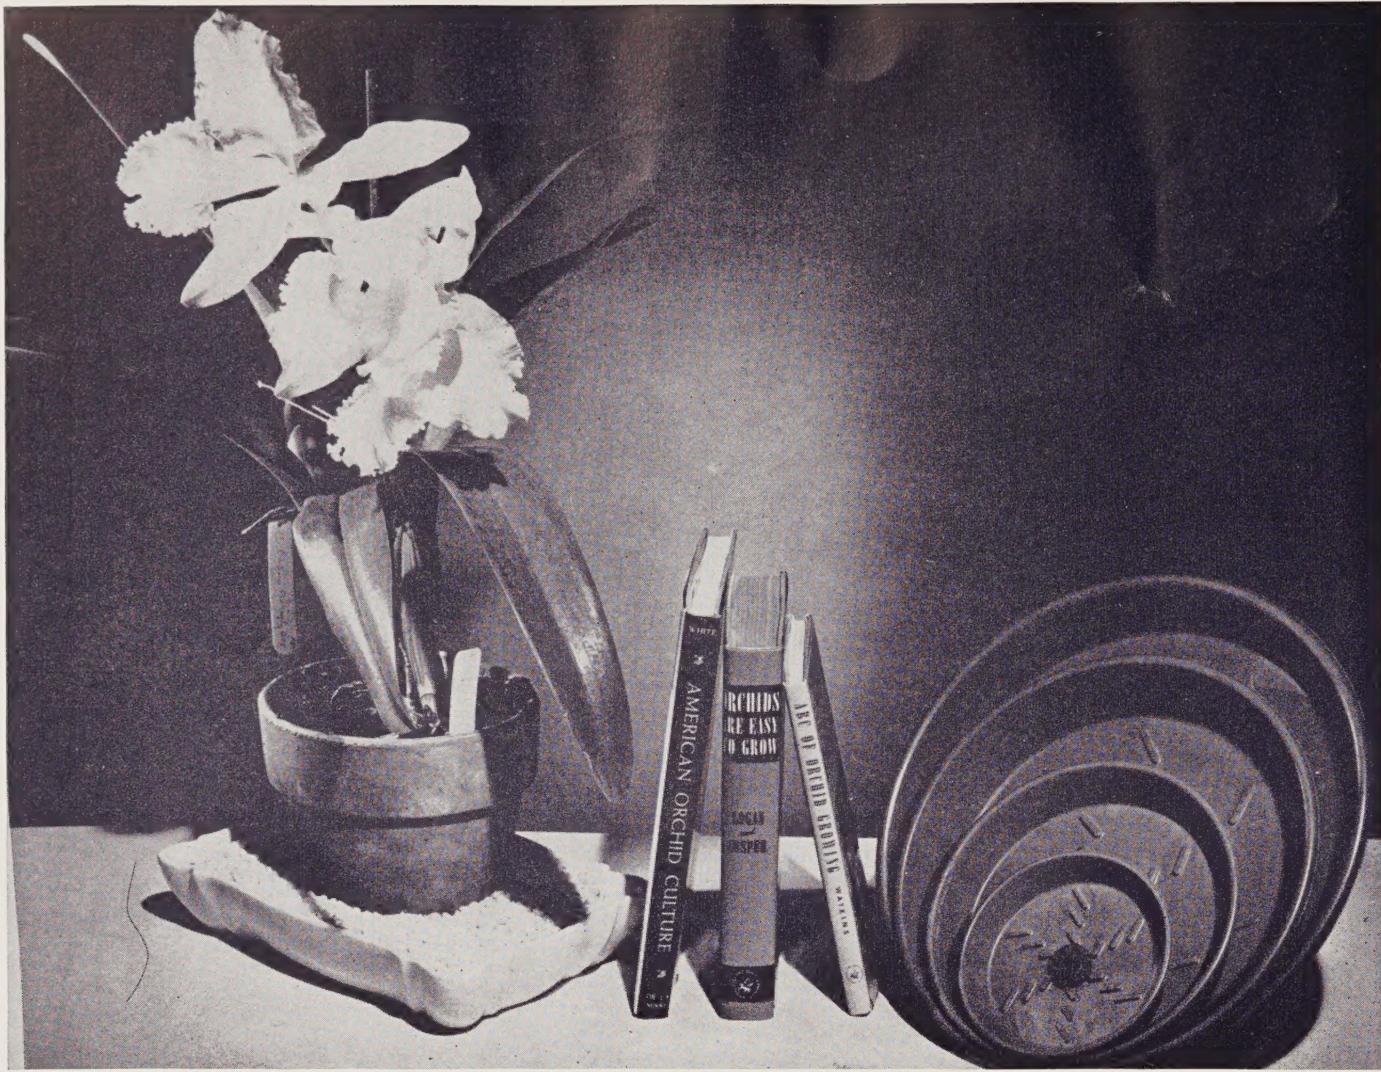

TEMPERATURE: *Cattleyas* like the usual, comfortable, ordinary home temperatures.

Odontoglossum do well in the cooler rooms, in the cool conservatory or sheltered porch.

Cymbidiums can stand more cold than any orchid. In the San Francisco area, Cymbidiums flourish in shady or protected gardens, in large pots in protected patios, or in unheated glasshouses.

HUMIDITY: Plants can be set in an ordinary tray or flat bowl, or on wetted pebbles or crushed rock placed in the tray or bowl. This rock helps to give added humidity by the evaporation of water kept about the rock in the tray or bowl. At least one inch should be allowed between the level of water about the rock, and the bottom of the pot.

Orchids, being one of the easiest of plants to care for, can be grown quite successfully in the home. They take no fertilizers, and are unusually clean. Orchids are now within the reach of everyone. The average plant for the home ready to bloom—\$7.50 to \$10.00.

THE SUCCESSFUL GROWING OF ORCHIDS IN A DISH, RUBBER SAUCER OR TRAY OF PEBBLES IN A LIBRARY OR LIVING ROOM WINDOW WITH THE PROPER EXPOSURE IS BECOMING IMMENSELY POPULAR WITH AMATEUR GROWERS WHO DO NOT HAVE GREENHOUSES.
